D. NOMA, TATTOOER.

60, QUEEN'S ROAD CENTRAL.

THE Public are informed that my Parlours are open from 9 A.M. all day. My 32 years' experience in TATTOOING is a guarantee of good work and prompt execution. My Colours are absolutely fast and perfectly harmless, and produce a charming effect not attained by any other, as their composition is only known to me. H. R. H. The Duke of York, and H. I. H. The Emperor of Russia, both honoured me with their patronage, besides many others of High Rank. Prices Moderate and satisfaction guaranteed as attested by 3,700 Recommendations which I have received from all sources.
 Hongkong, 10th November, 1904.

No. 1 DOCK.

Length inside, 514 ft. Width of entrance, top 95 ft.; bottom 75 ft. Water on blocks, 27.5 ft. Time to pump out, 4 hours.

No. 2 DOCK.

Length inside, 375 ft. Width of entrance, top 60.5 ft.; bottom 45.8 ft. Water on blocks, 26.5 ft. Time to pump out, 2 hours.

THESE DOCKS are conveniently situated in Yokohama harbour and the attention of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work, and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Towboats are available for taking Vessels in or out of Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

all competitors except those in open events.
Prizes presented by Mr. W. A. Crake.
Result:—

A. S. Kempthorne 1
H. L. Garrett 2
Time, 1 1/2 min.

COMMERCIAL.

FREIGHT.

In Messrs. Lamke and Rogge's circular of
Bihinst., they write:—Last circular bore date
the 25th ultimo, and, in the interval, a fair
amount of business has come to pass as per
list overleaf.

Annual shipping prospects for the year, it
may not be out of place to say—since a local
paper recently in a lengthy paragraph enter-
tained extremely pessimistic views on the sub-
ject—just at this time of the year, it is
absolutely impossible to form such a definite
opinion on the future.

Both Southern and Northern seasons have,
as it were, only just opened and as matters
stand just now, the future position of the
freight market in a great measure depends
upon further developments, as far as hostilities
are concerned. But even, should peace be
declared at an earlier date than generally
anticipated, it is not likely that, at least for a
long time to come, it will mean a severe blow
to shipping, as a great deal of tonnage will be
required before things are set straight again.

As a matter of fact, most of the big Japanese
shipping concerns are still going on charter-
ing, both here and in the North at fair rates
and not for short periods only. The six
steamers chartered on "time" basis, and em-
bedded in to-day's last, are exclusively for
Japanese account, and it is quite on the cards
that more tonnage will be wanted ere long.

As to chartering tripwise, business in most
directions, it is true, has been without much
animation, but as already mentioned, the
season has not sufficiently advanced to allow
of any safe prediction.

Saigon to Hongkong, there has been next
to nothing doing in consequence of the tem-
porary dullness of the local rice market, but
a change for the better can only be a question
of time and is pretty sure to come.

The rate stands at 13 cents per picul, but
that figure will not fetch any steamers except
such as wish to work their way to this port.

On the other hand, a very strong demand
has been prevailing from Saigon to Philippine
ports and, in addition to several others, a
company of large carriers (Iado-China boats of
some 65,000 and 50,000 piculs respectively)
have been fixed at 30 cents for one port only,
which may be called record fixtures, as such
quantities have hardly ever been shipped
before in one bottom. A new duty of, we
believe, 32 cents per picul will be raised in the
Philippines some time in May which, to some
extent, may account for rice being rushed in.

Saigon to Java, there have been inquiries at
30 cents per picul or slightly better, but no
fresh business has transpired.

Saigon-Kobe, a charter is reported at 28
cents per picul, more tonnage is likely to be
wanted before long and unless very big
steamers should "clip in," an improvement in
rates may be looked for.

Bangkok to this, nothing doing as yet for
"outsiders," though berth rates are said to be
a little better.

From Java ports to this, we quote 30 cents
per picul for wet sugar, but loading not before
May which so far has proved a stumbling
block to further business.

The ports of Newchwang and Tientsin have
opened since, but, though fair rates have been
paid for steamer loading up, return freights
leave so far, much to be desired and cannot
be quoted better than 23 cents per picul, on
basis Newchwang/Swallow. A large amount of
produce is being shipped to Japanese ports, but
the first pressing demand being filled, prices
may become cheaper, rendering business more
feasible for Southern ports. Recent advices
from Shanghai are anyhow holding out for
better rates in the near future.

Coal freights from Japan ports have ruled
slightly firmer with more demand for tonnage
and \$1.50 per ton may be called the closing
quotations from Moji to this. Coal is, how-
ever, scarce in Japan, occasioned by trans-
portation difficulties, and an increased demand
for bunkers and local consumption.

There have been a good many orders in the
market for miscellaneous business, but there is
little unemployed tonnage and such vessels as
are offering are of an unsuitable size and mostly
unfitted for coasting requirements.

Balt-Tonnage. Loading or to load.—For
Baltimore and New York, American ship
A. G. Roper, arrived 16th March.
Disengaged:—American ship S. P. Hith-
cock, 20th March.

Departures:—American ship Manual Lia-
gung, 27th March for Baltimore. British ship
King George 6th April for Newcastle.

"FOOD WAS KILLING ME."

SERIOUS CASE OF MALNUTRITION CURED BY
DR. WILLIAMS' PINK PILLS.

The good we derive from food is not measur-
ed by the amount we eat, but by our power to
digest it.

If the stomach is feeble it will complain by
violent pains, and if these warnings are
neglected complications will ensue, or the
patient must starve, for food becomes poison.

This explains the words of Mrs. Evans, of
Pontardawe, Wales: "Food was killing me."

"I suffered for twelve months," said Mrs.
Evans, when seen at her home in Brecon Road,
Pontardawe, by a *Swansea Daily Post* re-
porter, "and I think that an attack of influenza
must have brought it on. After meals fits of
giddiness would seize me, with acute pains in
the stomach. When I drew my breath I could
feel a sharp pain like a knife cutting into my
back; if I stooped everything in the room
seemed to go round."

"After taking food I was in agony; it seemed
as if food was killing me instead of keeping
me alive."

*Mrs. Evans and Daughter, both Cured by
Dr. Williams' Pink Pills.*
I grew to be a total wreck. Two first-class
doctors gave me medicine, but nothing seemed
to meet my needs until I tried Dr. Williams'
Pink Pills. From the first they gave relief,
and in a very short time I felt like another
woman. And this great change was effected
by only three boxes of the Pills.

"I am as well now as ever I was, and can
enjoy almost any food without fear of pain or
discomfort. My daughter suffered from
anemia so acutely that she had to give up her
work (dressmaking). She used to feel drowsy,
languid, weak, and not fit for anything. In
the morning she had awful fits of coughing.
In spite of all we did, she seemed to keep the
same—miserable and without energy. She
began Dr. Williams' Pink Pills, and from that
time things grew brighter. After the first bot-
tleful she felt much stronger, and steadily im-
proved; now she is back at work again."

Both Mrs. Evans and her daughter were
cured, though suffering from different com-
plaints, because Dr. Williams' Pink Pills made
new blood, and supplied strength to the
stomach. Whatever troubles arise from too
little blood, or blood that lacks purity, they can
cure. The genuine pills bear Dr. Williams'
name; substitute are useless. Dr. Williams'
Medicine Co., Holborn-viaduct, London, send
a bottle post free for 25d. Anemia, Bile,
Consumption, Indigestion, St. Vitus' Dance,
Rheumatism, Kidney Disease, have been cured
repeatedly, as instances already published have
proved. They give strength to everyone,
especially to women, who know why they need
new blood more often than their husbands and
brothers.

**THE FAMOUS Mad
Razor**
WEIGHT LESS THAN 1 OUNCE

THIS DWARF RAZOR has superseded
the old fashioned clumsy Razor and by
its use Shaving becomes a pleasure. It is
manufactured in Sheffield, England, from a
special amalgam of steel which makes imita-
tion impossible, and in consequence it enjoys
the largest sale of any Razor in the World.
Thousands of Testimonials testify that the
little "MAB" is the finest shaving implement
ever produced.

Will be mailed to any address on receipt of
the price (\$2), post free.

To be obtained from THE MUTUAL STORES,
WATKINS, LIMITED, and all first-class stores
in the Colony.

Sole Agents for Far East, HOWARD & Co.,
29, Des Vaux Road, Central, Hongkong.
Agents wanted in every port.

WEEKLY—\$18 per annum.

The rates per quarter and per annum, proportional. The daily issue is delivered free when the address is accessible to messenger. On copies sent by post an additional \$1.80 per quarter is charged for postage. The postage on the weekly issue to any part of the world is 30 cents per quarter.
Single Copies. Daily, ten cents; Weekly, twenty-five cents.

BIRTH.
On 3rd April, at 34, Range Road, Shanghai, the wife of WILLIAM YOUNG, of a son.

DEATH.
On 4th April, at 186, Chapoo Road, Shanghai, SHEIK RAMJAHN HOSEN, aged 24; deeply regretted.

The Hongkong Telegraph

HONGKONG, MONDAY, APRIL 10, 1905.

THE BALTIC FLEET.

The news which was received in Hongkong yesterday that the Russian Baltic squadron had passed Singapore came as an amazing surprise to the majority of people in the Far East. The vagaries which have characterised Roshjstvensky's fleet since it left the shelter of home waters, the delays and dilatoriness at Madagascar, the repeated contradictions that the fleet had sailed, followed by the statement that it occupied its old position, hardly prepared the public mind for this sudden spasm of energy. The Baltic Fleet, however, has reached Singapore and the question now to be considered is—what will happen next? It is known that a flying Japanese squadron is somewhere near the Gulf of Siam, and the difficulties of the Russians are now about to begin. With a line of vessels extending over ten miles and proceeding at the low speed of eight knots an hour, the Baltic fleet is peculiarly liable to attack by a mobile squadron of fast cruisers; and according to a rumour which gained currency in Hongkong to-day a fight has already taken place. It was reported that the Russian consul at Hongkong had received a telegram to the effect that an engagement had been fought 80 miles to the eastward of Singapore in which the Russians had proved the victors. The rumour went further, and alleged that five Japanese warships had been sunk by the Russian fleet, but what truth there is in all these reports it is difficult to say. If Roshjstvensky has really proved his calibre as a naval commander in the first engagement with the Japanese, the Tsar's choice will have been brilliantly justified; but there is always a suspicion in the mind that if there has been a fight the advantage has been not with the Russians but with the Japanese. However, time will tell; but in the meanwhile the Baltic fleet is slowly proceeding to the Farther East, and, from all accounts, an engagement in the very near future is inevitable. It has been suggested, and the probabilities are great, that Roshjstvensky will divide his fleet at sea, that one half will go to Indo-China, while the remainder makes for Vladivostok via the Philippines. The result of such a move would be to permit the Russians to harass Japanese trade in these waters, while the rest of the fleet would account for matters in the north. French neutrality would not be greatly taxed—if the vessels only entered for coaling purposes—and, moreover, the French have always had a partiality for their Russian allies; a fact which is not perhaps very surprising. Whether the other half of the fleet could succeed in evading the lynx-eyed Japanese cruisers is another question. Now that the Baltic fleet is here, events are bound to march rapidly, and it cannot be many days before we are able to realise the strength of Russia's forlorn hope.

HONGKONG'S RIVAL.

An important step is being taken by the Government in Manila, with the object of fostering the shipping trade of that port. A committee has been appointed to investigate the harbour regulations and the restrictions which hamper American and foreign trade, and to promulgate a plan for their improvement. The real object of the committee is to rival Hongkong as a distributing centre, and already the good people of Manila see their port the hub of the Far East. Major-General Corbin, chairman of the Committee which is to accomplish this great work, candidly expresses the opinion that from its geographical situation, and with its new system of harbour works, Manila is the future trade centre of the Orient. Of course, Rome was not built in a day and Manila is not likely to compete successfully with Hongkong for some time to come; but the Americans are to make a bold bid for custom, and no expense will be spared to secure the end in view. The Committee, which

has been appointed to investigate the harbour regulations, will also consider the question of lowering the port and harbour dues, so that Manila may become the distributing centre from Singapore to Manchuria. The greatest reliance is placed on the character of the new docks to attract shipping. It is pointed out that large steamers are unable to approach within fifteen or twenty miles of Shanghai; while at Hongkong and Singapore ships must lie out in the roads, on account of the lack of docking accommodation. By using the new docks, now under construction in Manila, vessels can load or unload with the same ease and facility as they can in New York or Liverpool. Major-General Corbin sees no reason why Manila should not be the terminal point for the big trans-Pacific liners. By a system of bonded warehouses, modifications of the port and harbour regulations, and an amendment of the harbour dues, Manila will leap at once into the front rank as one of the great ports in the world. This roseate dream, however, depends upon private enterprise, and it remains to be seen how far the people of Manila will respond to the call for increased energy. At any rate, Hongkong need not feel greatly alarmed for some years to come.

LOCAL AND GENERAL.

H.M.'s surveying vessel *Rambler* left for Singapore this morning.

BISHOP Favier, of the Lazarist's Mission, Peking, died on 3rd inst.

MR. RIGSDALE, American Consul-General at Tientsin, has been transferred to Dawson City, Yukon Territory, on promotion.

SEVEN cases of small-pox were notified as having occurred in the Colony last week. Five of these were Chinese, one European and one Indian.

THE total population of China is estimated at 432,000,000. Shanghai is given at 551,000, Soochow 500,000, Hankow 870,000, and Tientsin 750,000.

IGNOR Marconi states that he is confident that before long he will be able to transmit messages to the Antipodes more economically than by cable.

OWING to the presence of rinderpest in the Philippines, the desirability of the Commonwealth dealing with the quarantining of stock is being emphasised.

MR. J. C. Aikman, M.L.C., who purchased the wrecked steamer *Austrasia*, has abandoned his efforts to float the ship. Out of the content, however, he netted £8,000.

GENERAL Fock, who is now a prisoner at Nagoya, has no faith in General Linievitch being able to save the Russians from disaster, where General Kuropatkin failed.

At a meeting of the directors of Messrs. Hall & Holtz, Ltd., on Wednesday last it was decided to recommend the payment of a final dividend of \$1.50 per share, making 12½ per cent. for the year.

WE learn that Mr. Tully, of Messrs. E. C. Wilks and Co., who was so successful in floating the ill-fated *S. S. Shrewsbury*, is laid up suffering from injury to his knees, as the result of a fall. Mr. Tully was stepping out of a tram car when he slipped on the narrow foot-board, and landed on his knees.

THE clause in the new mining regulations prohibiting foreign participation in mining interests in China, is still being discussed in Peking, and the Chinese Government have not yet complied with the demand of the Foreign Ministers for it to be struck out as it violates the protocol and the commercial treaties.—*P. & T. Times*.

A FRENCH sailor from the *Resolue* was charged by a ricksha coolie with refusing to pay his fare after driving around the town. Defendant said he started out with \$10, and had a few drinks, and when he returned to the Sailor's Home he found he had no money left. The case was remanded by Mr. Kemp till to-morrow.

THE officers of the armed cruiser *Rion*, formerly the Volunteer steamer *Smolensk*, held a special banquet to celebrate the news of the fall of Port Arthur, which only one officer declined to attend. They were not, however, rejoicing over a Russian reverse, but they thought it would lead to peace and enable them to get back to their homes.

THE following is the return of visitors to the City Hall Library and Museum for the week ending the 9th April, 1905:

	Library	Museum
Non-Chinese.....	294	74
Chinese.....	109	1,873
Total.....	493	1,947

THE *Eastern Times* gives currency once more to the discredited old fiction that the Peking authorities are contemplating the introduction of constitutional government into China. The *China Gazette* says, the story, which comes from Tokyo, is only a revival of the fable that was current when Kang Yu-wei was at the height of his notoriety, and is about as choice a piece of nonsense as a credulous public was ever asked to swallow.

COMMISSIONER F. A. Carl, returning from St. Louis Exposition, was expected to arrive in Shanghai by the N. D. L. S. *Prinz Heinrich*. Mr. Carl is well known in Hongkong by reason of his long connection with Lappa, where he was engaged in the service of the I. M. Cigarettes.

MR. N. de G. Davies, who is conducting explorations in Egypt, reports having discovered between the sepulchres of Ramesses IV. and Ramesses XII, the tomb of Yua and Tui, parents of Queen Telo. The sepulchres had not been disturbed since the time of the eighteenth dynasty (about 1300 B.C.), and were still filled with Royal treasures. The discovery is the most important ever made in Egypt.

ON the occasion of the departure of Acting-Judge Wilkinson from the bench of the British Court in Hongkong, a tribute was paid to the local press for their reports of the law suits. Mr. Naylor, of counsel, remarked that local reports of cases certainly would not bear comparison with the "Times Law Reports," but they were infinitely better than the reports appearing in the Singapore papers. It was only when compared with Hongkong and Shanghai, where the reporting was very excellent indeed, that Bangkok fell at all short.

VICEROY CHOU Fu of Iankiang recently appointed Admiral Yeh of the Nanyang and Peiyang Navies to inspect with the assistance of Mr. Bassé, a German civil engineer, the site for the dockyard of the Shanghai Arsenal and to adopt such measures as are deemed necessary for the purpose, as already reported. It is now learned that Mr. Bassé has returned to Nanking, giving a full report of the dockyard schemes, to the Viceroy. Mr. Bassé has been ordered to carry out the schemes with power to employ engineers.—*Sinwaphoo*.

A VERY enjoyable social evening was spent at the Y.M.C.A. on Saturday, on the occasion of a farewell reception by the Chinese department to the general secretary, Rev. W. J. Southam and Mrs. Southam, who are leaving for England by the next German mail. After a musical programme had been gone through a large number of members and friends sat down to a banquet, and following the removal of the cloth, the President of the Department addressed the assembly eulogising the work of Mr. Southam and wishing him and his wife a pleasant holiday. Others having spoken and Mr. Southam replied, two Chinese silk scrolls were presented on behalf of the native department and the beautiful giftshaving been suitably acknowledged the proceedings terminated.

A COMMUNICATION has been received by the Minister for Mines and Agriculture from Mr. J. B. Sutor, Commercial Agent in the East, wherein he refers to an inquiry he heard of for a large quantity of lead, and only 14 days given for the supply. It appears a certain firm had a large consignment on hand, with the result that they obtained the contract under most favourable terms. Mr. Sutor says there are similar and numerous instances, for it is a characteristic in the Orient not to anticipate requirements for any length of time ahead, hence urgent deliveries asked for when required. Mr. Sutor also again refers to the advisability of a certain portion of the copper output being reserved for the East instead of forcing importations via London and other places.

MR. W. H. Trenchard Davis, hon. secretary of the Hongkong Volunteer Reserve Association, informs us that fifty members entered for the April Competition, under sealed handicaps, on Saturday at the King's Park range, and some good scores were recorded. No scores will be published until next month, members having the option of shooting again for the same trophy at 200 yards on Saturday, the 22nd inst. It has been found necessary to amend the original programme as follows:—Saturday, 22nd inst., 200 yds. Monday, 24th inst., 500 yds. and Saturday, 29th inst., 500 yds. The firing points have been repaired and lengthened, and many other improvements effected at the range. Arrangements are now being made to erect shelter sheds at the various firing points.

A NEW ISLAND IN LOOCHOO ARCHIPELAGO.

REMARKABLE VOLCANIC DISTURBANCES.

WE learn from the *Japan Mail* that a new island has made its appearance in the Lochoo Archipelago. It is said to be 2,000 feet long by 1,800 feet wide, and to be surrounded by a sandy shore. Near the north coast is a lake. The island emerged from the sea on the 4th of December, but the fact was not announced to the local officials until the 8th of March. Its position is 3 nautical miles south of Iwojima. From the 14th November frequent intervals sounds were heard from the sea; sounds as of heavy explosions, and on the 28th heavy smoke was observed. The inhabitants of Iwojima imagined that a steamer was passing, but as the volume of smoke grew denser and continued to emanate from one place, they suspected the truth. This went on until the 4th of December, and on the appearance of a small island was observed amid the smoke, which, therefore, grew lighter, so the 6th, the island stood plainly revealed. In January the people launched a boat, and on the 30th of that month they landed on the north shore of the new island. They ascended the highest point, 480 feet above the sea, and there raised a post declaring the island to be the property of Japan, and saying that it had been first observed by the inhabitants of Iwojima on the 18th of December. The face of the island is covered with volcanic tuff and the water of the lake is boiling.

BANK BURGLARY IN HONGKONG.

NEARLY A QUARTER OF A MILLION STOLEN.

An exceptionally daring burglary, carried through with great dash and audacity, was committed at the premises of Sui Hing, banker, 100 Wing Lok Street, in the early hours of Sunday morning, and money and securities aggregating \$216,010 were appropriated. No clue to the perpetrators of the burglary has been found, and the proprietor of the establishment can offer no suggestion as to any suspected party.

When the premises were locked up on Saturday evening, the money, promissory notes, scrip, and shares belonging to the firm were placed in the safe—one of the old-fashioned iron box affairs. The safe stands in the ground floor of the business, and is a door to the room in which it was, it is stated, three servants sleep. About 3 o'clock on Sunday morning one of the partners awoke with the uneasy feeling that there was some stranger in the house. He immediately went to the next room, and was shocked to find the safe standing wide open and its contents rifled. He gave the alarm to the whole household, but the burglar had fled, taking with him everything of value he could lay his hands upon. When the proprietor came to measure the extent of his losses he was dismayed to find that the burglar had taken \$216,010 in ready cash, mostly notes of small denominations, although there were one or two of \$100 each. Bills and securities to the value of \$211,362 has also disappeared, besides scrip for ten Hongkong Banking Corporation shares, the office chop, and various scrip. It will be practically impossible to trace the bank-notes, but the securities should be recovered unless the burglar, finding that he cannot dispose of them without involving the risk of his own capture, should wantonly destroy that evidence of his crime. As for the promissory notes, they are of no use to anybody except the drawer, and it is not at all likely that the Bank shares will be sold, certainly not on the local market at any rate.

As previously remarked the proprietor of Sui Hing says he has not the faintest suspicion who the burglar could be; he has no enemies that he is aware of, and it is unlikely, in his opinion, that a person would burglarise a house merely to get back a promissory note. It is the cleverness and the cool manner of proceeding about the matter that will arouse attention. From all that can be seen, the burglar entered by a skylight on the roof of the house. He found his way to the basement, past half a dozen sleepers, and yet he must have trod so lightly that he never even stirred the repose of the slumberers. Then he fitted a key into the lock of the safe, carefully selected what he wanted, and wandered away the same way as he had come. He had fingered the papers so gently that they do not seem to have rustled even, otherwise the three servants sleeping in the adjoining apartment, separated by a thin partition from the safe, would almost certainly have heard the noise. The fact that he had a key upon him, with which to manipulate the lock would seem to hint at inside complicity, but Sui Hing scouts that notion.

It is stated that the bank does not usually keep such a large stock of money in the house, but on Saturday evening, after the sales of the day, several tradesmen brought their takings to the bank, with the result that the value of the money and securities totalled nearly a quarter of a million of dollars. Of that sum, it is possible that the burglar may manage to secure for himself \$5,000 or more, but the rest is valueless to him. The story reads like an amazing puzzle; the crime might have been committed by a somnambulist, for all the traces left behind. And the curious part of it is that nobody can even hint at a possible clue. The police were informed of the occurrence on Sunday forenoon, but up to the present time, not a vestige of the missing money has been seen or heard of. It is a mystery which will give the police authorities something to think about for some time to come.

HARBIN ARSENAL DESTROYED.

An expanded cablegram printed in Manila exchanges, and dated from San Francisco on 4th inst., states that a bomb explosion in a Russian arsenal at Harbin was the cause of a terrible disaster to the Russian arms. Seventy-five men, mostly soldiers, but some of them civilian employees of the ordnance department, were killed and a great many others were wounded. The official explanation is that two workmen were filling the shell when through carelessness on their part it was exploded. The concussion set off other shells and in an instant the entire contents of the arsenal, numbering millions of projectiles, went up in a solid column of flame and smoke, and a thundering detonation shook all Harbin. Houses were wrecked for many yards about the arsenal, people were thrown violently to the ground, and cavalrymen patrolling the streets of the town were unhorsed. Every one in the arsenal perished. The loss to the Russian army is a severe one, as the munitions destroyed were intended to be used by Linievitch's army, and it will be weeks before a new supply can be brought over the trans-Siberian railroad.

THE following telegraphic information, dated the 2nd inst., has been received from the Sumatra Director and Manager of the Maatschappij tot Alrijding van Landbouwen Exploitatien in Langkat, Ed.—

Kerosine in stock at Refinery at date 51,000

SOLDIER'S STRANGE DEATH.

ACCIDENTAL POISONING.

At the Magistracy this afternoon, Mr. F. A. Hazeland, sitting as Coroner, held the inquiry into the circumstances attending the death of one Usuf, a private in the 119th Maharratta, which occurred on the 27th ult. The following jurymen were empanelled: Messrs. Walter Daniel (Foreman), K. N. Mody, and Somerville.

Shek Otor Ali said he belonged to the same 119th Maharratta regiment as deceased, who was a Mahomedan. On the night deceased died witness went to see him at 9 o'clock, to take a lesson in the scriptures as usual, and found him well and in good spirits, and stayed about an hour. He never heard deceased say he was sick of life, and he never heard him threaten to take his life.

Mahomed Ali, who was in the same company as the deceased, stated that on the night before deceased died he did not hear him complain of feeling ill, of having had any bad news, or of being tired of life. He was still in bed when witness got up early the next morning. He did not know if deceased got up in the middle of the night. He remembered deceased going to hospital, but did not know before he was taken there that he was ill. He was a married man and his wife was in India.

Shamat Khan, a private in the 119th regiment, stated that he slept in the same room as deceased. On the night of the 27th witness went to bed at 10 o'clock. Deceased was then sitting on his bed. He did not complain at all of being ill. At six o'clock next morning, deceased was still sleeping in his bed. At seven o'clock when he returned to the room he saw that the deceased was sick. He was then in the daily ready to go to hospital, and was senseless. Witness saw him carried away to hospital.

Ahmed Ali Khan said deceased complained to him about half-past five that he was feeling ill. He was there in his bed. Witness then went to fetch a *doily* to take him to hospital. That was about six o'clock; when he returned with the *doily*, deceased was sitting up but was not senseless, though he did not reply when spoken to. Witness felt his head and found he had fever. He was senseless when he was removed to hospital. Deceased did not go out that day at all.

Another Indian deposed that he was the Company cook; and on the 27th ult. witness cooked the evening meal for deceased, who, that night, only ate bread which witness made. He used the usual flour, and nothing else.

Captain W. Luke, of the Indian Medical Service, stated that he was medical officer in charge of the 119th Infantry. He saw the deceased first between seven and half-past seven on the morning of the 28th ult. The man was then senseless, and had slight fever, and was unconscious of any painful pressure. He did not respond when called upon. His pupils were widely dilated, and insensible to light. His skin was warm, and his organs apparently healthy, the heart beating forcibly, and there were no signs of any disease—such as enlarged glands, etc. In witness's opinion deceased died from poisoning from a vegetable alkaloid, such as datura. Suicide is rare among Mahomedans, and is uncommon in India generally. The religion of Mahomedans is against suicide. Datura is used as a powder to alleviate pain, and is also smoked in cases of asthma, and is a specific among the natives for colic. There have been a good many cases of colic among the Indian regiments in Hongkong, due to the cold winds. Deceased's quarters searched by witness's assistant, but nothing was found. There is no difficulty in obtaining this datura in Hongkong.

His Worship shortly reviewed the evidence in his charge to the jury, and pointed out that what they had to consider was whether the poison was administered by another to murder deceased; whether he took it himself to commit suicide; or whether he took an over-dose accidentally. As regards the first point no evidence had been adduced to suggest that the man was murdered. On the second point it was in evidence that the man was of a happy disposition, and on good terms with all his comrades. On the point of his accidentally taking an over-dose it was in evidence that the datura was commonly taken by the Indians for colic, and colic was very prevalent among them, especially as the regiment had only been here two months.

The jury, after a brief consultation, returned a verdict of death by "misadventure" by accidental poisoning.

In an interview with Professor Watson, of the Adelaide University, who has just been on a trip to Hongkong and Manila, reference is made to a disease in the Philippines known as surra, which is killing off horses and cattle. The disease, it is stated, is believed to be identical with the sleeping sickness so destructive among certain natives in South Africa.

SHIPPING AND MAILS.

MAILS DUE.

Canadian (*Empress of India*) 11th inst.
German (*Prinz Heinrich*) 11th inst.
German (*Preussen*) 12th inst.
American (*Monticola*) 16th inst.
Indian (*Mamang*) 17th inst.

The P. & A. s.s. *Arabia* sailed from Portland, on 1st inst., and is due here on 3rd prox.
The Java-China-Japan Lijn s.s. *Tjipanas* left Kobe via Kuchinotzu and Amoy for this port on 7th inst., and may be expected here on or about the 18th inst.

The Imperial German Mail s.s. *Prinz Heinrich* has left Shanghai on Saturday at 11 a.m. and may be expected here on or about to-day p.m.

The P. & O. S. N. Co.'s s.s. *Poon* left Singapore for this port on 9th inst., at 11 a.m.

The P. M. S. S. Co.'s s.s. *Manchuria* with mails, &c., which left hence March 11th for San Francisco via Shanghai, Nagasaki, Kobe, (Inland Sea), Yokohama, and Honolulu, arrived at her destination on the 7th inst.

TELEGRAMS.

[Reuters.]

Alleged Bonapartist Plot in France.

LONDON, 7th April.
A sensation has been caused in Paris by a seizure, in the suburbs, of stores, military uniforms and cartridges, believed to be in connection with a Bonapartist plot to seize the President and Ministers, and overthrow the Republic. Two arrests, including a half-pay officer, have been made.

The Earthquake in India.

One hundred and forty Gurkhas were killed by the collapse of the stone barracks at Dharmasala and seventy-one are missing; up to the present it is known that sixteen English were also killed there.

Five hundred Gurkhas were killed at Dharmasala, and three missionaries perished in the ruins of the Mission House at Kangra.

France and Morocco.

M. Delcassé has made a brief statement in the Chamber explaining in carefully chosen phrases that France will continue to give advantageous advice to Morocco, as friends seeking to injure none, and will be ready to discuss any possible misunderstanding with any one.

The War in Manchuria.

General Kharkevitch reports that the Japanese have been forced to retire from Erdasheze to Sulu shu.

Russia.

Several members of the Moscow Medical Congress have been arrested.

The Government.

Mr. Balfour, speaking at Leeds, said that the Government was resolved to remain in office as long as it possessed the confidence of the House.

[N. C. D. News.]

The Armada that is Coming.

Osaka, 3rd April.
The speed of the Italian fleet shows a decrease of two knots since it left Madagascar, and the crews are in consequence much dispirited.

The Cost of the War to Russia.

Osaka, 3rd April.
According to the St. Petersburg Official Gazette the Russian losses since the outbreak of the war are 435,000 men, and the expense incurred is £208,000,000 sterling.

HONGKONG DOCKS.

WORK IN SIGHT.

Over a month ago the steamer *Pharsalia*, bound to Manila with a cargo of coal from Australia for Messrs. Castle Brothers Wolf and Sons, struck an uncharted rock in San Bernardino Straits, Philippine Islands, and an attempt is to be made to save the ship. It is understood that Capt. Garry has reached an agreement with Lloyd's, the underwriters of the wrecked steamer, and was to leave for the scene of the wreck on Saturday with a crew and equipment to float the ship. The latter consists of five large pumps, the smallest one being 10 inches in diameter, two 14 inch and two 12 inch pumps, and a complete diving apparatus. Captain Chapman of the wrecked schooner *J. B. Leeds* will assist in the work and Mr. Benton, formerly second mate of the *Leeds* will do the diving. A crew of about thirty natives will go with the expedition. The terms of the contract are that Captain Garry with deliver the vessel in Hongkong for \$55,000 (gold) and if the attempt to save the *Pharsalia* is unsuccessful he is to bear all the costs without any payment for the work. An unsuccessful trial to raise the stranded vessel has already been made by a local wrecking firm. Some of the coal aboard the vessel was lighted, but a large portion still remains in the hold.

CORRESPONDENCE.

[We do not necessarily endorse the opinions expressed by Correspondents in this column.]

THE V. R. C. SPORTS.

IN THE EDITOR OF THE "HONGKONG TELEGRAPH."
Sir,—With reference to the V. R. C. sports on Saturday, a very curious remark was passed by one of the members of the above Club, when the names of the children were being taken in the girls' race. It was stated that two-thirds of the children were ineligible to compete, because the race was meant for the children of members. Only Mr. Mitchell was approached and said that there was no definition in the programme as to who were or were not entitled to run. If the V. R. C. is going to confine the race to members' children only, why not specify in the programme and advertisement, so that there may be no misunderstanding on the subject.—I am, etc.,
PRO BONO PUBLICO.

THE WEATHER.

The following report is from Mr. F. G. Figg, First Assistant of the Hongkong Observatory—
On the 10th at 12.5 p. The barometer has risen in F. Japan, and fallen over China and the Loochoos.
The area of high pressure has progressed Eastwards and is now lying over SE. Japan, and a depression appears to be developing to the S. of the Loochoos.
Gradients are slight on the China coast, and moderate variable winds will probably prevail in the Formosa Channel and moderate NE. winds over the N. part of the China Sea.
Forecast:—Moderate or light E. winds; fair.

THE CRUISER "SULLY"

Through the courtesy of the French Consul we learn that the salvage operations on the *Sully* are going along very satisfactorily, and, given a continuance of fine weather, those in charge of the operations are very sanguine of her ultimately being floated off her present perch and towed safely to dock. Notwithstanding the length of time she has been on the rock she shows no sign of weakness anywhere, but is firm and steady, and all now depends practically upon the weather.

FANCY DRESS BALL.

ROYAL ENGINEERS EN FETE.

It was an exceedingly happy idea which induced the members and non-commissioned officers of the Royal Engineers stationed in Hongkong to give a fancy dress ball, which took place in the Engineers' Theatre at Wellington Barracks on Friday night. There was a very large attendance at the ball, and from the variety of costumes represented, and the character of the roles assumed by the masquers, it was evident that no little interest had been aroused in the event. The theatre, which is none too large on ordinary occasions, was crowded to overflowing, and, indeed, dancing during the earlier part of the evening was carried on in what might be termed a congested area, but everybody was in the highest spirits, good-humour was bubbling over, so that what might have been considered by some an inconvenience became a source of fun and amusement. The friends of the non-commissioned officers turned up in full force, amongst the present being Captain and Mrs. Watkins, and Lieut. Clark, R.E. The arrangements were under the charge of Q. M. S. Saunders, R.E., president; Q. M. S. Hunt, R.E., secretary; and a committee including Company Sergeant Major Hobson, R.E., and Sergeant Woodruff, Army Pay Corps. When the dancing was in full swing, the scene was not only exceedingly animated, but it was decidedly picturesque. The sight of an alleged French dandy in hayseed style prouetting with one of the Roman tribe, or a Canadian scout "making up" to a Dutch frau would have charmed the heart of a Hogarth. There was an alleged British workman on the scene, and he carefully sustained the character by refusing to work at any price. Some of the Court dresses were exceptionally good. Among the ladies, those who represented the plays of all nations, the Scotch lassie, the Pierrotte and various allegorical figures such as Night, Winter, Folly and so forth, were complimented on the results of their taste. There was a large array of Indian dresses; the gallant Engineers being no doubt in a position to get the real thing from the Indian Troops across the way. As for Chinese representations, that character seemed to be remarkably popular, for there was a host of mandarins, literati, Chinese blue-jackets, and all the rest of it. The Chinese coolie, however, was remarkable by his absence. In the course of the evening a flash-light photograph was taken of the party and it is to be hoped that the brilliance of the scene will be adequately brought out on the negative. The Engineers' band provided the music for the dancers and it was done dexterly after midnight before the gathering broke up. Refreshments were supplied at a buffet, and altogether the proceedings proved exceedingly enjoyable.

Among the characters represented at the ball were—Mrs. Hunt, pierrotte; Mrs. Minion, Stars and Stripes; Miss Gidley, Greek maiden; Mrs. Thomson, flags of all nations; Mrs. Osberry, Night; Mrs. Thomas, Winter; Mrs. Goldenberg, Folly; Miss Sheffield, an American girl; Mrs. McLeod, Scotch Lassie; Miss Edwards, Mrs. Moffatt in Pantomime; Mrs. Gass, Flags of all nations; Mrs. Germain, Little Red Riding Hood; Mrs. Webb a nurse with Baby; Mrs. McElvey, Flags of all nation; Mrs. Jacobs, Snake Charmer; Mrs. Frampton, Queen of Black Diamonds; Mrs. Mitchell, nurse; Mrs. Kynoch (Kowloon) Night; Mrs. Smith, Eighteenth Century Lady; Mrs. Wilds, Mrs. Blogg, and Mrs. Simons, Irish girls; Mrs. Hill; French Peasant; Q. M. S. Hunt Chinese Sailor, P. Kohn, Alf, Cavellaria Rusticana; Inspector Lawrence, Nabob; Mr. Tucker, Rajah; Mr. Hylander, Chief; Mr. Ross, P.W.D., Highlander; Sgt. Hewitt, A.S.C. Jockey; Corporal Mann R.E., Q.M.S. Minion, R.E., Torpedo Gunner Wilkes H.M.S. *Albion* all as "beefeaters," Q. V. S. Saunders, Pierrot; Mr. Evans, Toreador, Mr. Donovan as Chirgwin or the White eyed Kaffir, Mr. Howarth, Prince of Burnley, Mr. Howell, Supreme Court, Chinese Mandarin, Mr. Hill, Barrister, Company Sergeant Major Holson, a British Workman; Mr. Huxley, H.M.S. *Centurion*, Plack and White; Staff Sergeant Voser, R.E., a soldier off duty; Sergeant Major Jacobs; Albanian; Ex. Sergeant Major Smith, late R.G.A.; Crown Staff Sergeant Walston, a Country Squire—Sergeant Major Whitehead Chief; Company Sergeant Major Logan representing the H.K.V.C.; Staff Sergeant Thompson, Clown; Staff Sergeant and Mrs. Olive, Chinese Mandarin and Lady.

PRINCE ARISUGAWA

EXPECTED IN HONGKONG.

Prince and Princess Arisugawa and suite are expected to arrive from Shanghai by the Norddeutscher Lloyd steamer *Prinz Heinrich* on their way to Germany. Their Highnesses are accompanied by Mr. Saito Totoro, Director of the Court Treasury, Mr. Itō Yukichi (son of Marquis Itō) Marshall of Court, Mr. Maruo Kinsaku, Chamberlain to the Crown Prince of Japan, Captain Bawa Kinsaku, of the Japanese Navy, Major Hishida-Kikujuro, Artillery, Mr. Mimura Ishinoske and Mrs. Hashinobi, Lady in Waiting. Prince Arisugawa is a cousin of the Mikado and at one time was adviser. He was educated in England and spent some time in the British navy. He now holds the rank of Admiral in the Japanese navy and it is said of him that he has had practical experience in almost all branches of his profession and has even acted as stoker.

SHIPPING JETSAW.

The *Kong Nam*, stranded on *Ma Wan* Island, is now pumped dry, and it is hoped at high tide to-morrow, she will be floated off and towed into dock. Since pumping her out her hold has remained free of water.

A raid has been made on the transport *Lisum* which recently arrived at Manila from Hongkong, and, as a result, goods to the value of \$5,000 (gold) were discovered on which no attempt had been made to pay the duty. The goods were seized and the matter is now under investigation. It is claimed that the goods were to be smuggled ashore.

THE RULE OF THE ROAD.

Before the Hon. Captain L. A. W. Barnes—Lawrence, R. N., Marine Magistrate, at the Marine Court this morning, P. C. Fred Norman charged Leung Yau, Master of the licensed steam launch *Hoi Ping*, certificate No. 1,094, with unlawfully failing to keep to his starboard side in the Southern Fairway, at 5.30 p.m. on the 6th inst. P. C. Norman said that at 5.30 p.m. on the 6th inst. he was on duty in the Southern Fairway, and noticed the defendant in the steam launch *Hoi Ping* steering west, close in shore abreast of Wing Lok Street. He continued on this course and then crossed the Fairway. Leung Yau said he had to cross there, but when, with model he tried to explain why, it was shown that he had no excuse for not observing the rule of the road at sea, and he was accordingly fined \$3.

With a view to effecting a connection with various lines running between Formosa and the South China ports, and in compliance with the Japanese Government order, a Japanese steamship company have decided to start a regular line between Shanghai and Hongkong, via Foochow, Amoy, and Swatow. The steamers to be used on the service will be the *Triumph* and *Clara Jensen*, both chartered vessels, the latter of which, says the *N. C. D. News*, is due here from Hongkong on the 11th inst., and will sail from Shanghai about every ten days. This line may expect especially to be patronised by shippers to Formosa; as, with the establishment of the line, the inconvenience hitherto experienced in sending cargo via Japan is done away with. Another feature of the line will be the punctuality in departure from every port, this being necessary to meet the Government order. It may be added that the Company's own excellent steamers will take the chartered vessels' places before long.

FOREIGN TRADE OF CHINA.

THE CURRENCY QUESTION.

The following is from the report of Mr. H. B. Morse, statistical secretary of the Imperial Maritime Customs, on the Foreign Trade of China for the Year 1904—

The war appears to have been of minor importance among the conditions affecting the trade of China during the year. A large area of production and consumption was cut off, and trade was hampered, to some extent by the action taken by the Chinese authorities in restraint of those who would have made of the Chinese ports bases of supply for one or other of the belligerents; otherwise, and at a distance from the seat of war, the direct effect was not clearly perceptible. Indirectly, of course, some effect was produced. The monetary stringency, existing since 1900 and well marked at the end of 1903, became more pronounced as the war went on, and must be held accountable for some, at least, of the stagnation prevalent during 1904; it is probable that it was a potent agency in restricting the export of Chinese produce, and thereby increasing the so-called "adverse balance of trade." Among Imports we find that textiles, a third of the whole, alone show no expansion, a fact due directly to the inflated cost of the raw material. These various causes have had their influence in producing the depression which characterised certainly the first nine months of the year, but among all other causes the fluctuations in exchange must not be lost sight of. Trade can adjust itself to a low exchange or to a high exchange, or even to a shifting exchange if the movement can be foreseen; but a state of things which introduces the element of gambling into the business of every day, which makes it impossible for a merchant to estimate the amount in one currency which will give him a profit in another, and which may even make it doubtful if a profit actually realised in one currency can be safely landed in another, all this increases the cost of trading by enforcing the wisdom of large margins, and by so much acts as a restraint on trade.

From the lowest point, 2s. 4½d. in March 1903, exchange rose to 2s. 8½d. in May, a difference of 12 per cent. in two months; June it fell 3 per cent., and rose again to 2s. 11½d. in September, a jump of 13 per cent. in three months; in December it touched 2s. 8½d., a fall of 10 per cent. in three months; in February it had mounted to 3s. 1d., a rise of 16 per cent. in two months; was down again to 2s. 8½d. in April, a fall of 14 per cent. in two months; in three months was again up 9 per cent.; and after another decline, made a jump in the last two months of 1904 of 8 per cent. In two years China saw a series of nine fluctuations between extreme points ranging from 3 to 16 per cent. for each in the currencies in which Imports and Exports are handled wholesale. When we come to the collection of Exports and the distribution of Imports, we have still another series of exchanges between the wholesale currency, silver, and the currency of the people, copper. From the diagram it will be seen that copper also has appreciated in terms of silver in the course of 35 years, silver having in that time lost over 50 per cent. of its copper exchange value. In the course of every year there is also much fluctuation in the exchange between silver and copper, but by no means always synchronous or commensurate with the changing relations of gold and silver. We have here a double-lever state of disturbed equilibrium. Every parcel of Foreign products in its course from

the place of production to the ultimate consumer, and every lot of Chinese produce from the producer to the Foreign market, are subject to a bewildering series of exchange conversions in which each person who handles the goods is forced to allow a margin to cover all possible fluctuations, which, as we have seen, may amount to 16 per cent. within a period insufficient to carry the goods from their starting point to their ultimate destination. No trade can stand such a strain under conditions in which even the wise foresight which settles exchange in advance may involve the operator in a heavy loss; and it is high time that all interested in the prosperity of the trade of China—governments, banks, importing and exporting merchants, guilds, jobbers, and retailers—used such influence as they possess to further any method of reform which will ensure stability of exchange.

Notwithstanding the evidence of the stagnation of trade, it is still true that China as a whole was in a prosperous condition during the year. In the North the crops were abundant. The unprecedented rains which visited Manchuria, impeding the movements of the belligerents and causing them much hardship brought to the cultivator a joy which was mitigated only by the difficulty he experienced in finding a cash market for his abundant crops. Chihli and Shantung were both favoured with good harvests, estimated at nine-tenths possible "best"; and nothing but the general stringency of the money market, more marked at Tientsin than elsewhere, interfered with a generally good year for trade. It is stated, however, that Shansi bankers, who four years ago abandoned their plundered vaults and withdrew their available assets, will resume operations at Tientsin during the coming spring. In Shantung the railway to Chi-nan, 412 kilometres from Tsingtau, was opened to traffic. From Sze-chuan alone at least crops reported, and the ensuing destitution can only partially be relieved because of difficulty of transport. The wealthy Yangtze basin was free from the disturbances only in Kiangsi, some rioting and from Hangchow some pillaging of boats being reported; and the harvests of the whole of the vast area were excellent, as good as in 1903—tonnage, even, sufficient to move the Rice from Wuhu, was wanting. The stringency in the Hankow money market became more pronounced toward the end of year. From Hankow the railway to the north is open to traffic for 433 kilometres as far as Hsueh-chou, and the road bed is ready to the Yellow River. In Fuhkien, too, a very good Rice crop was harvested, but from the vicinity of Amoy come reports of devastating floods. From this province is heard the first audible note of distress—not local—due to the war, coming from the dealers in Tea and Timber, shut out from their northern market. Kwangtung suffered from deprivation of the Beancake needed to manure its fields, and the piracy in the Canton delta was rampant; the province as a whole was prosperous and the harvest abundant. The railway from Canton to Samshui has been opened to traffic, a length of 20 miles (32 kilometres). In Kwangsi the disorders have been reduced, if not entirely repressed, and here, too, the harvest was good. Yunnan reports the "harvesting of an exceptionally good crop of Rice," and an abundance of coin circulating, introduced for railway construction. Finally, far away Yauing reports that the trade with Tibet was entirely disorganised by the operations of the British Expeditionary force, that a two years supply of both Imports and Exports is waiting to be moved, but that the necessary transport will not be available; from Yunnan and Szechuan come reports of increased trade with Tibet. On the whole, the conditions of trade were excellent and such as to overcome, except in the actual field of operations, the inevitably depressing effects of the war; and the maintenance and even increase of the values of the Import and Export trade are an indication of brilliant prospects for the coming year, assuming that no untoward conditions intervene to bring distress on the Empire.

The negotiation of the Commercial Treaties pursues its leisurely course. In 1902 was concluded the British Treaty, and those with Japan and the United States of America in 1903; to these has now to be added that with Portugal, signed in 1904, but not yet ratified. Two new Treaty ports were opened during the year—Kongmoon, in Kwangtung, on the 7th March, and Changsha, Hunan, on the 1st July. The total revenue of each treaty port is given as follows:—

MAGISTRATE'S DECISION.

APPEALED AGAINST.

At the Supreme Court this morning the Chief Justice (Sir H. S. Berkeley) and the Puisne Judge (Mr. T. Sercombe Smith) heard an application for the re-hearing, before the Full Court, of a charge of common assault heard and determined by Mr. F. A. Hazeland, at the Magistrate's Court in February last. It may be remembered that the accountant of a Chinese shop, No. 140 Queen's Road West, was recently fined for being in illicit possession of opium, and it subsequently transpired that a servant boy, named Mok Shui, had been in the habit of feigning opium for the accountant of the premises, who concluded that it was he who had given information to the excise officers which led to his being fined for being in illicit possession of opium. It transpired during the hearing of the case of assault that the boy was brutally treated, as a result of which the accountant and five other men were charged and convicted and sentenced to imprisonment for six months with hard labour, without the option of a fine, and six hours in the stocks.

It was against this decision that Mr. H. E. Pollock, K.C. (instructed by Mr. d'Almada e Castro, Messrs. Bratton, Hett, and Goldring) appeared in Court this morning on behalf of the six defendants, Li Ngok, Chung Un, Li Hu, Leung Luk, Lu Yit, and Li Hon, while the Attorney-General (Hon. Mr. E. H. Sharp, K.C.) represented the respondent.

Mr. Pollock explained that they were before the Court on a motion made by the appellants for the re-hearing before the Full Court of a charge of common assault, which was heard and determined by the Police Magistrate on the 22nd February. Their Lordships would see from the form of the notice of motion that, in the first place, the appellants were asking for a re-hearing generally upon the facts of the case with leave to adduce fresh evidence; and, secondly, they were submitting to the Court that there ought to be a re-hearing on the grounds that the sentence which was passed upon the defendants was excessive. With regard to the general question of the sentence being excessive, Mr. Pollock said he would show their Lordships that the evidence given before the Police Magistrate certainly weighed unevenly upon the defendants relatively one to the other, and he submitted that, as a general principle, the case was unlike one, for instance, where six men start out, some of them being armed to commit a robbery, as each of the six would be responsible for any of the acts committed by any of the others. But it was rather a case of a situation suddenly occurring in the presence of several people, and if the Court could see that there was a different degree of blame attaching to the people in the present case there ought to be a differentiation in the degree of the penalty. He submitted, primarily, it would have been the duty of the Magistrate, assuming he was of opinion that the extreme penalty he could impose in his jurisdiction was insufficient as regards some of the defendants, to have sent them for their trial at the Sessions. With regard to the evidence given in the case their Lordships would see that practically the evidence against the defendants rested, he might say, solely upon the evidence of the boy himself, the complainant.

The Chief Justice intimated that no fresh evidence could be adduced at the present stage, and

Mr. Pollock alluded to the New Territories Land appeal case where it had been allowed. The Chief Justice remarked that, had he been sitting he would have been inclined to refuse the application as a matter of principle, and in the present instance he could not receive any other evidence.

After further argument the application was disallowed with costs for the respondent.
